Welcome to the 28th EBCOG Congress

2023-05-17

The event will take place on 18-20 May 2023 in Krakow, Poland. This international conference is organized through the cooperation of EBCOG (European Board & College of Obstetrics and Gynaecology), ESGE, ESHRE, and the Polish Society of Gynaecologists and Obstetricians (PTGiP).

The congress is a great way to learn, share experiences, and take part in practical sessions that are highly valued abroad.

The 28th EBCOG Congress will feature lectures by world-renowned experts in gynaecology and obstetrics. The event provides an opportunity to learn about new surgical techniques. At the conference, we will discuss prenatal diagnosis or gynaecological oncology. Together, we will reflect on the impact of modern world problems on gynaecology and obstetrics. Of course, we find time to talk about equal opportunities and women's rights.

Together with ENTOG, we are also extending an invitation to all residents and young specialists. They will be given the opportunity to obtain GESEA Level 1 and Level 2 certification, which is a universal pass to the profession of gynaecological surgery.

However, the conference is mostly associated with learning, the Congress will also include time for a bit of entertainment in good company. This year's meeting will be an opportunity to celebrate the 100th anniversary of the Polish Society of Gynaecologists and Obstetricians.

The 28th EBCOG Congress will take place from 18 to 20 May 2023 at the ICE Krakow Congress Centre.
