

Conference facilities

2025-07-24

The city of Kraków has excellent conference facilities. Business meetings can be held not only in modern conference facilities, but also in adapted theater and concert halls - such as the Kraków Opera House (about 800 seats), the Kraków Philharmonic (about 700 seats) or the Juliusz Słowacki Theater, considered the exclusive "living room of Kraków," with a three-level, air-conditioned auditorium accommodating 530 people.

Conferences and symposiums are also held in Kraków hotels, offering conference spaces for about 2,000 participants. In addition, Krakow's museums provide their unique interiors for MICE events.

In response to the growing needs of event organizers, the Municipality of Kraków has decided to build the multifunctional ICE Kraków Congress Center. The facility, which combines congress and concert functions, was officially opened on October 16, 2014. We believe that ICE Krakow will become a place for important meetings and a space conducive to creativity and the development of many fields.

2014 also marked the opening of two other strategic investments for the events sector: TAURON Arena Kraków and EXPO Kraków.

[Database of Conference Halls in Krakow](#)
