Magiczny Kraków

KRAKDENT® Trade Fair in June

2021-05-06

We look into 2021 with great hope, believing that we will meet you soon at the International Exhibition and Convention Centre EXPO Krakow. Related to the change in the functioning of the company, caused by the decision of the Ministry of Health to transform the facility into a temporary hospital, we invite you to the KRAKDENT® International Dental Trade Fair later than usual - on June 10-12, 2021.

Our EXPO Kraków facility will be restored to use earlier, but we want to have time to carry out works that will allow you to enjoy comfortable interiors again. The upcoming edition will certainly be unique, because we will meet for the first time after a long break. It will be an ideal opportunity to exchange experiences, insights from the past year, establish new contacts and supplement knowledge with the latest solutions available on the market. The organizational team of the KRAKDENT® Trade Fair is fine-tuning all the details related to the accompanying program of the upcoming edition, so that it meets the expectations of the event participants.

We are looking forward to seeing you again.
