H15 Luxury Palace as the only Polish hotel in the new ranking of Fodor's Travel

2021-11-18

Kraków's H15 Luxury Palace, managed by the Dobry Hotel group, was featured on the list of Fodor's Finest Hotels of 2022. It's the only facility located in Poland to be recognised this year in the ranking prepared by one of the leading publishers of travel and tourism information.

The "Best Hotels in Europe" section mentions 15 recreational facilities in Europe that are most worth visiting. Among them – as the only hotel located in Poland – is Kraków's H15 Luxury Palace. It's part of the nationwide chain of hospitality and catering establishments managed by the Dobry Hotel group.

When creating the ranking for 2022, a range of criteria that must be met by the given facilities in order to be included among the "101 Most Incredible Hotels in the World" was taken into consideration. In this edition, Fodor's considered not only the complexity and quality of the recreational standards offered, but also the hotels' appropriate adherence to safety standards, which – after the emergence of a global pandemic – became subject to significant changes.

It's a great recognition both for H15 Luxury Palace, as well as for the entire Dobry Hotel group. Being featured in the ranking compiled by one of the most acknowledged travel titles in the world is a source of enormous satisfaction for us. It proves that the hard work put into the development of our company – especially in the times of the pandemic that are difficult for the entire industry – has really paid off. We can also see this reflected in the perception of our Guests, says Daniel Łukaszewicz, Managing Director of the Dobry Hotel group.

The H15 Luxury Palace was entered into the Dobry Hotel chain in August 2021. The luxurious five-star hotel was established in the location where the aristocratic palace of the Lubomirski family once stood in Kraków. The historic interiors of the H15 Luxury Palace were carefully restored. This allowed the rooms to retain their old feel in combination with modern, minimalist interior design and to create an exceptional, one-of-a-kind atmosphere that adds to the leisurely comfort of the guests.
