## **HospitalityHelps - a platform offering accommodation for refugees has been created**

2022-04-07

**The aim of the HospitalityHelps platform is to provide temporary hotel accommodation to people from Ukraine who were forced to leave their homes due to the war. The website connects these people with hotels from many countries - including Poland - providing several free nights of accommodation.**

According to the HospitalityHelps platform, one person can receive free accommodation for five nights in one of nearly 400 hotels from 42 countries. The platform offers 24/7 support in three languages - Ukrainian, Russian and English. Its initiators are: PKF hospitality group, The Bench, HotelSwaps, MUSEUM BOOSTER, Zoocha.

‘Such hotel chains as Accor, Marriott, IHG, Radisson and Hilton have made their facilities available. In Poland, accommodation is available in Warszawa, Krakow, Wroclaw, Gdansk and Olsztyn. By providing a hotel room for the family, we can send a small smile to the children and provide a brief relief to the parents or grandparents. Our #HospitalityHelps platform is up and running. So let us know if you can provide a hotel room (plus a free hug if possible) to Ukrainian refugees. This can be anywhere in Europe and on other continents, but, of course, the most urgent need is in Moldova, Romania, Hungary, Slovakia, Poland, Czech Republic, Austria and Germany,’ Michael Widmann, Global CEO, PKF hospitality group, wrote on his LinkedIn profile.
