26th European Conference on Artificial Intelligence (ECAI 2023)2

2023-08-24

ECAI is Europe's leading venue for artificial intelligence research and one of the most important AI research conference series in Europe. With more than 40 years of tradition, the conference brings together leading representatives from both academia and industry.

This year, for the first time ever, the 26th edition of the conference will be held in Poland, in Krakow, in a prestigious location next to the Royal Wawel Castle. The ICE conference center is located at walking distance from the historic center of the city.

ECAI 2023 will present a full technical program and many AI-related events of interest to researchers, students and industry professionals. Among them are workshops, tutorials, a doctoral consortium (DC), as well as conferences for early career researchers (STAIRS) and prestigious AI applications (PAIS).

In addition, the conference will have an industry session where companies supporting the event will have the opportunity for presentations, networking and recruitment.
