30<sup>th</sup> November 2016

Cracow Convention Bureau  
Municipality of Krakow  
Department of promotion and Tourism

### To whom it may concern

The World Foundry Organisation joined foundry associations from all over the world and every two years co-organises the World Foundry Congress with one of its members. In 2018 the 73<sup>rd</sup> World Foundry Congress will be organised in Krakow and the main organizer will be the Polish Foundrymen's Association. We are glad that we will be able to count on the experienced and professional Krakow Convention Bureau. Certainly the wide range of support offered by Krakow Convention Bureau will improve organizational level of the Congress.

The package of support includes among other things:

- promotional materials about Krakow and (maps, leaflets) for all participants,
- promotional video about Krakow with possibility to use it in the promotional video of the event,
- promotion of the event through the Krakow Convention Bureau website, Facebook
- special gifts, transportation and city tours for VIP participants.
- organisation of an information stand at the airport.

The World Foundry Organisation and the Polish Foundrymen's Association are honoured to organise the next World Foundry Congress in Krakow. We appreciate the foregoing cooperation with Krakow Convention Bureau and we can certainly recommend it as a helpful partner in organization of conferences and congresses in the historic city of Krakow.

Yours sincerely

Eur Ing Andrew Turner FICME  
General Secretary
